Solar LED Access Point Lighting

The Solar LED Access Point Lighting system utilises the latest LED and solar technology to illuminate entire stairwells, walkways and paths.

The system is off-grid, easy to install and includes PIR sensors to ensure the LED lights illuminate the area required when personnel are approaching, and the solar charge is not wasted when not in use. It's completely off-grid and easy to install. Access Point Lighting is critical for personnel safety and provides clear access and exit routes.

Features & Benefits

- 100 %renewable energy
- No running costs
- 12V system
- LED low energy consumption lighting
- Motion activated PIR sensors ensure energy is utilised efficiently
- Minimises risk of slips, trips and falls
- Easy and quick installation
- Off-grid system with no connection required

Zero
CO2 Emissions

Zero
Fuel Costs

Zero
Noise Pollution
